

ANTIQUE MIRROR PRESENTS

KATAMAMA

shapes by Antique Mirror

WELCOME

We dreamed of objects suspended in time between modern design and the reflections of an ancient tradition. And so we started by synthesizing the handcrafted creations of the antique mirror masters of Antique Mirror in pure contemporary forms. We continued calling artists around us to give material and light to their creativity. Now our dream has taken shape and life with the magic of objects that are reflected in the elegance of your homes.

Dr. Massimo Bergna

introduction OUR BRAND

By now you have understood where our name
Tatamama comes from. From the best known rhythm
of the drummers of the Palio di Siena. A tribute to our
land and our traditions.

brand's goals OUR MISSION

TUSCAN HEART

Italy, Tuscany, Siena... our heart beats here and here we also took inspiration for our name: tatamama is the name given to the beating of the drums that are prepared for the Palio of Siena.

GLOBAL VISION

We are looking for designers of all continents and we want to enter homes all over the world. It is not a marketing choice, but our belief that beauty has no boundaries.

HONESTY & INTEGRITY

The Company stands out for its attention and respect for the environment that surrounds it, observing ecological regulations and making use of renewable energy.

Home COLLECTION

Objects with elegant shapes enhance the unique reflections of the materials. Choose from the different colors to create coordinated environments or combine these creations with the style of your home.

handcrafted PRODUCTS

For over forty years Antique Mirror has been dedicated to researching and creating special products in the world of flat glass. All the slabs and mosaics are produced in the Sovicille (Siena) plant with the application of particular patented procedures and with exquisitely handcrafted techniques.

Each product is similar but *unique and unrepeatable*.

collaboration with DESIGNERS

Our Design Collection brings together all the works of designers who wanted to play with our materials. The encounter between their talent and the passion for mirrors has led to the creation of unique and unrepeatable objects.

We present them to you:

- *Cristina Celestino*
- *Marco Gavotto*
- *Myriam Kuehne Rauner*
- *Claudio Di Palma*
